Falcon is a company resolute on providing the best possible quality services in the fields of training and consultancy, as well as energy, environment, health and safety technologies.

Falcon was founded by a dedicated highly experienced group of professionals specialized on strategic planning, environmental management and development projects' implementation.

Our company places great emphasis on the international market and the implementation of projects under the European Commission financing. It undertakes assessments and studies on environmental restoration/impact and safety.

Falcon consulting is the ultimate choice for your business needs.

In the modern corporate world knowledge plays an important role in the successful management of businesses.

Falcon offers an advanced non-formal learning services following the ISO 29990:2010—"Learning services for non-formal education and training", on the pillars of the deep experience and knowledge of their partners and instructors.

Flexible solutions for your business

Training Solutions

Providing excellent training services for our customers is a combination of skills, as well as strategies, teaching approaches and techniques, which are implemented by our instructors. **Falcon** takes into consideration your particular needs in designing and delivering training sessions.

Engineering Consultancy

Falcon owners and partners is known for its efficiency, expertise and know-how in implementing various projects. It is of the utmost importance that we provide services characterized by managerial and technical competence. Our greatest ambition is the successful closure of all our projects and the satisfaction of our clients.

OUR APPROACH

Reliability, commitment to excellence, competence and consistency are some of the qualities **Falcon** is based on. Our committed professionals, based on an in-depth analysis treat each individual project as a unique venture, developing a suitable technical program of assistance that provides tailored solutions to the client's special needs. This assistance may be in the form of:

- * A problem solving process
- * Satisfying the business' special needs-performance.
- * A tool in achieving performance targets.
- * Support for building organizational capacity.

Falcon is ready to integrate all the above approaches, if this is what is required for the successful completion of your projects.

We aspire to build our business relationships on mutual trust. The achievement of results with an emphasis on innovation and sustainability, quality, cost analysis and time scheduling are non-negotiable from the conceptual phase of the project to its closure.

OUR RESOURCES

Falcon is privileged to have an excellent human resources team as well as high quality technology infrastructure systems. We invest on experienced professionals in all the important technical fields: Chemical, mechanical and electrical engineering, economics and environmental sciences. Falcon provides a pleasant working environment, motivation and training of the human workforce as well as the cultivation of team work spirit and integrity. Our company executives using their vast experience provide high standard, specialized consulting services concerning the planning and implementation phases of the projects. It cannot be stressed enough that our human resources team is instilled with all our founding principles: reliability, competence, excellence, and consistency.
